20. The overall quality of teaching-learning process in your institute is very good.

67 responses

21. Give three (3) observation / suggestions to improve the overall teaching – learning experience in your institution.

67 responses

.

.

Don't know

1. i learn many thing how life ,how to study.
2. improve in many thing not only study.
3. improve in all thing which we have learn .

1. To include more experimental/practical viz watching documentaries related to our topics
2. To have a class discussion and row/lane competition (to be monitored by the concern/subject teacher)
3. INstead of giving READY MADE notes and materials (excluding e-books) ,, making notes by our own helps in improving and uplifting our knowledge on studies ,, i beg to say that It'll be an easier task for the future as well ,not only for the teacher for the student as well ,,as ready made notes led to the negligence in our studies and not understanding ,, if the individual or the whole class had no idea on some topics or a doubt ,, that should be heralded to the concern subject teacher.

..

More graphic and visuall media

.

1. More effective
2. To guide students
3. to play as role of real lecturer

- 1) Teachers have to understand students problems and their background before judging.
- 2) They have to encourage students in extracurricular activities and support them in every competition especially in sports as youth these days engage in sports activities more nowadays.
- 3). Teachers have to be apporachable to students when ask a doubt and not scold the student.

Materials handed sufficiently to students

Having less extra classes

Covering syllabus faster in most classes so as to be more effective in classroom as we would be afraid to miss out a period

- 1) Teacher should more prepare about their topic.
- 2) Teacher should shown their pupils 'enthusiasm'.
- 3) Teacher should provide co-curricular activities at least once a month.

1. Stop online class with offline exam
2. teaching with mizo language as much as possible
3. awareness to decrease cost outfit

- 1) Providing proper materials,
- 2) Studying how other colleges lecturer does

1. Teachers must pay more attention for students as some students can have problems in their study
2. Teachers must provide better material to study, so that we can learn better. And also give us suggestions to study
3. Due to Covid-19, many of us students, we suffer from covid and cannot study properly as online class is not good enough to get knowledge. They should understand more about us students rather than scold us even in small problems

No observation

1. Weekly Tests should be taken more seriously.
2. C.C.A would be appreciated
arts , class projects etc when possible.

3. ...

More practical activities

1. It would be helpful if the concerned teacher of the subject could give offline classes in this pandemic era
2. Online exams/test must be avoided to better prepare the students.
3. There should be times when students must be given their own free time/free space as they too struggle at their respective homes/current residence.

- 1) I have a great confidence in my life, it's gave me a courage To struggling all the problems before me.
- 2) It's gave me a lot of development in my career.
- 3) I can choose the interest things for my future, and the understanding of human being.

To know the learning meaning well , not only in rote learning .

1

Teaching according to the requirements of the students

1. encourage more rather than forcing them
2. know the students weakness

3. to stop comparing students to other students
4. more extracurricular activities and the teacher should also try to be interested in this

To communicate better, to encourage students, to give more opportunities.

- 1- Better information
- 2- More books in library
- 3- more activities (NCC, SSU. etc.)

1. Ask students to share information about each other's backgrounds and academic interests. Encourage students to prepare together for classes or exams. 2. Create study groups within our course. 3. Ask students to give constructive feedback on each other's work and to explain difficult ideas to each other.

Explain the lesson practically, to conduct presentation and test

ans

The teaching techniques is excellent in our institution elsewhere there is little to improve :

1. Scrutinized the examination questions pattern and studying previous questions
2. To conduct regular class i.e on the portion or topic or chapter that have been taken
3. Finally, students advance in learning must be motivated in which they have the ability to be top in their final exam.

Try to reach every student and ask for their doubts. Make teaching a two way interaction. Use better graphics and visual media to engage students well

In my opinion it is good enough

In my opinion there is no suggestions needed since the overall teaching-learning experience in our institution is good.

1. The overall teaching - learning process needs an upgrade.
2. Teachers must be enthusiastic to teach their students so that their students pays more attention which may result in good attendance and grade.

Student are the first important
Secondly The Environment of the Campus
Thirdly Moral education

- 1) More interaction between the teacher and the students.
- 2) Discuss about a certain topic and listening the students' opinion.
- 3) More presentation in class.

Nil

1. All students in the class must understand what we are learning in the class. Only coming in the class and give some lecture and after that leaving the class is no use for the students.

Very Good

I don't know

1. Use better graphics and visual media to engage students well.
2. Try to reach every student and ask for their doubts.
3. Make teaching a two way interaction.

1. Ask the students to create a questionnaire from their syllabus.
2. Focus on visual learning as they can retain information for longer periods of time than words.
3. Create questions for chapter-wise, unit-wise or whole syllabus in an online platform.

- (1) consider new learning method
- (2) connect to student individually
- (3) prepare to work with parents

Very good

Caring

1. Having assignment for better learning.
2. Listen carefully to teacher explanation.
3. Doing practical as possible

1. More class test would definitely help in preparation for exams.
2. More co-curricular activities.
3. Student Union members have to be humble.

Goo

- 1) Giving interest to every individual students so that to know/reach out their weaknesses and to be able to improve their weaknesses
- 2) to be friendly by encouraging the students
- 3) many tasks and out going activities should be done for better teaching- learning experience

More teachers and students interaction in class.

I dont have suggestions

1. communicate with colleagues
2. communicate with parents
3. creating a welcoming environment

3

Ahah

more use of projectors

1. using more projector in class
2. also care sports and other activities more than this
3. give more detail feedback on assignment

Good

- 1) good connection between professor and students
- 2) give prompt feedback
- 3) recognize student learning styles

1. stop forcing students
2. to understand the students situations
3. to encourage more and do more life skill development and extra curriculum activities

First good

Second due to covid 19 never have an experience in college life

third I loved being a college student
